CAREER PROFILE SUMMARY

Passionate and results-driven Software Engineer with expertise in Full Stack Web Development, AI, and Cloud Computing. Proficient in JavaScript, TypeScript, Next.js, React.js, and backend technologies such as Node.js and Spring Boot. Experienced in developing scalable applications and AI-driven solutions. Adept at problem-solving, teamwork, and effective communication.

EDUCATION

- Vellore Institute of Technology** Vellore, India
Bachelor of Technology - Electrical and Electronics; GPA: 8.0 2021 - 2025
- Mansukhbhai Kothari National School** Pune, India
12th Board CBSE, Science with Mathematics; CGPA: 8.46/10 2019 - 2021
- The Lexicon International School** Pune, India
10th Board CBSE; CGPA: 8.6/10 2017 - 2019

SKILLS SUMMARY

- Languages:** Java, Node.js, PHP, HTML5, CSS, JavaScript, TypeScript, Kotlin, Python
- Frameworks:** React.js, Next.js, Spring Boot, Bootstrap, Tailwind CSS
- Tools:** AWS, Webpack, Network Protocols, Docker, Kubernetes, GIT, PostgreSQL, MySQL, SQLite
- Android Development:** Android SDK, Jetpack Compose, XML Layouts
- Soft Skills:** Leadership, Problem-Solving, Teamwork, Communication, Time Management, Public Speaking

EXPERIENCE

LG Electronics

Engineering Intern

Pune, India

Aug 2023 - Sep 2023

- TV Product Development Lifecycle:** Conducted rigorous quality control tests, identifying and resolving 15+ product defects to enhance overall product performance.
- Testing and Debugging:** Performed functional and stress testing on television hardware and software components, ensuring optimal system stability.
- Collaborative Product Enhancement:** Worked with cross-functional teams, including software engineers and hardware designers, to optimize product efficiency and troubleshoot reported issues.
- Documentation and Reporting:** Prepared detailed reports on testing procedures, identified defects, and suggested improvements, contributing to the refinement of LG's quality assurance process.

JP Morgan Chase and Co.

Software Engineering Internship

Remote

April 2024 - May 2024

- Set up a local development environment by downloading the necessary files, tools, and dependencies.
- Fixed broken files in the repository to ensure the web application outputted correctly.
- Used JP Morgan Chase's open-source library called Perspective to generate a live graph that displays a data feed in a clear

PROJECTS

- WROOM-IT (NEXT.JS, TYPESCRIPT, REACTJS, TAILWIND CSS):** Built a Zoom Clone using Next.js, TypeScript, and Tailwind CSS, implementing real-time video conferencing, authentication, and meeting controls. Integrated Clerk for authentication and GetStream for real-time video, ensuring secure and seamless user interactions.
- REAL-TIME AI VOICE ASSISTANT (NEXTJS, 11LABS):** A real-time voice assistant using Next.js and the ElevenLabs Conversational SDK, storing data in a local file or database.
- HOTSTAR CLONE (HTML5, CSS, JAVASCRIPT):** Developed a web application replicating Hotstar's core features, including user interface, content management, search functionality, user authentication, and video playback.

CERTIFICATIONS

- Full Stack Web Development
- AWS Cloud Practitioner
- Google Technical Support Fundamental
- Google Bits and Bytes Of Computer Networking
